PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Molodechno Army Barracks Velikoye Selo is located in the northeast sector of Molodechno (54-19N 026-53E). The installation is not rail served but has direct access to the all-weather Molodechno-Osipovichi highway and urban streets (Figure 1).

The installation (Figures 2 and 3) covers approximately 100 acres and includes four barracks, two multistory barracks/administration buildings, 21 storage buildings, eight support buildings, and two equipment storage/mainte-

nance areas containing nine vehicle sheds and two maintenance buildings. The installation also contains an athletic field, a small arms firing range, and a probable wheeled-vehicle training course.

The area was covered by two KEYHOLE missions between

Heavy ground scarring observed on the summer coverage was not discernible on the winter coverage. No significant changes were observed

DESCRIPTION OF INSTALLATION

Railroad Service

The Molodechno Rail Yards are located 3 km west.

Road Service

The installation is located adjacent to the all-weather Molodechno-Osipovichi highway and has access to urban streets.

Administrative and Troop Housing Area

Area D (Figure 3) contains four barracks and two multistory barracks/administration buildings. Trackage visible on summer photography is not discernible on winter coverage.

General Storage Areas

Area E1 contains nine storage and four support buildings. Trackage visible on summer coverage was not discernible on winter photography.

Area E2 is secured by a wall and contains 12 storage buildings and one monitor roof support building. Trackage visible on summer coverage was not discernible on winter photography.

Other Buildings

Three support buildings are located in the driver training area (M).

Equipment Storage/Maintenance Areas

Area J1 contains two 260- by 35-foot vehicle sheds and one 230- by 35-foot vehicle shed. Three rows of possible vehicles were observed on both summer and winter coverage.

Area J2 contains three 210- by 35-foot vehicle sheds, three 160- by 40-foot vehicle sheds and two 100- by 40-foot maintenance buildings. Scarring in both areas indicates heavy summer but light winter usage.

Athletic Field

at the installation.

Area K is an athletic field. Light scarring was observed on summer coverage.

Small Arms Firing Range

Area L is an 800- by 50-foot small arms firing range, with a slightly elevated firing line located approximately 350 feet down range. Scarring on summer coverage indicates usage.

Driver Crew Training Area

Area M is a probable wheeled-vehicle training course. Scarring was observed on summer coverage, but none was visible on winter photography.
